Subject: the light rail from camden to trenton New Jersey

Dear Sirs or Madams,

Please do not waive any important safety concerns for the light rail in new jersey. I dont know much about your bussiness but I have three small children and we live one house away from the rail.

I am asking you, for all the small children who live in Delanco and other towns, to take your job seriously. Please do not allow monetary concerns override the concerns that you are really hired to take care of. No money can replace life.

thank you,
Michael Smith
Delanco NJ
